

I was born in Athens, Greece, and I have obtained a bachelor degree in Theology at the National and Kapodistrian University of Athens and then a bachelor degree in Greek Philology at the same University. I have also studied acting at "Diomidis Fotiadis" Drama School and have obtained a Certificate in Acting. Since 2006 I have been working as a secondary school teacher and have successfully attended seminars in school mediation, scientific research methodology, student assessment and classroom management. Apart from that, my love for acting, in the field of which I have been working since my first student years of university life to date, has led me to the decision to pursue the profession of actress too. Since then, I have been actively involved in improving my expressive skills, attending Classical Ballet, Graham, Laban System and Song lessons. I have participated in theatrical performances of classical and modern repertoire, while lately I took part in a documentary-TV show in Greece as a founder, script writer and producer of this project. Since September 2016, I have been a founding member of the Nominati Productions company, where I serve as chairwoman and Chief Executive Officer. Nominati has the form of a Social Cooperative enterprise of Collective and Social Benefits and is active in the production of educational projects, online courses, theatrical performances, films, TV shows, educational events, the creation of electronic platforms and applications considering culture and education, etc. Purpose of the company is the pursuit of collective benefits and the service of general social interests. In October 2019 I settled in Berlin, Germany, with my family. Since then, I am fully responsible for giving online courses for the Ancient Greek and Modern Greek Language both for children and adults in English and German. At the moment I am doing a Master's in Saint Andrew's Orthodox College in Sydney, while I decided to move to Sydney for work and studies. My previous experience in the field of Education enables me to act effectively and creatively. Both knowledge and experience allow me to be flexible and achieve success in work environments where responsibility, organizational and communication skills are required. I have a variety of interests and this allows me to manage under stressful conditions where vitality, directness and endurance are demanded. I am eager to work hard to reach my desired goals. Besides, I am highly motivated as far as teaching, writing and acting development is concerned.
